

# TASK SESSION 7

## User Interface:

- Minimum 5 Pages for the interface
- Must contain a **validated** registration page

### FEATURES :

minimum one feature (whatever your website is about)

---

## Admin Interface:

- Minimum 7 Pages at least for the interface
- An Admin can **Add** and **Update** Item/product/service (whatever your website is about)
- An admin can **add** category
- An Admin can **add another admin**

### FEATURES :

- Admin can **Hide** a Product/item/service (whatever your website is about)

IMPORTANT FOR development/design communication

## **Anchors and buttons:**

We use **Anchors** for:

- Edit
- Delete/clear

We use **Buttons** for:

- Add
- Sign up
- Any Insert Form

## **WE DON'T USE:**

- Action in Forms
- Input type submit (we use button type submit)
- Design delegates Can't use attribute "name" in any inputs

## **Navbar and Footers:**

We Don't need a navbar and a footer in every page we need each one of them in an HTML page and Web Development delegates can use a function to include them in every page.

## **Comments:**

Either Development or Design, Comments are the key for working in a team, Design Delegates must Write a comment declaring when a card starts and when it ends
